

Tax Relief for Your Business!! Alert! Alert!

The new tax law provides profitable businesses with some nice tax breaks for tax years beginning in 2008 by increasing the Section 179 expensing limit to \$ 250,000 and bringing back the 50% first –year bonus depreciation deduction for qualifying assets. Your business will definitely want to try to maximize the benefits of these deductions; which can be enhanced even more through leasing your equipment additions. Please consult your tax professional for how working with Peninsular Leasing can help you take advantage of this benefit!
